Sunaura Taylor

The New Breed Kate Darling, 2021-04-20 For readers of *The Second Machine Age* or *The Soul of an Octopus*, a bold, exciting exploration of how building diverse kinds of relationships with robots—inspired by how we interact with animals—could be the key to making our future with robot technology work. There has been a lot of ink devoted to discussions of how robots will replace us and take our jobs. But MIT Media Lab researcher and technology policy expert Kate Darling argues just the opposite, suggesting that treating robots with a bit of humanity, more like the way we treat animals, will actually serve us better. From a social, legal, and ethical perspective, she shows that our current ways of thinking don't leave room for the robot technology that is soon to become part of our everyday routines. Robots are likely to supplement—rather than replace—our own skills and relationships. So if we consider our history of incorporating animals into our work, transportation, military, and even families, we actually have a solid basis for how to contend with this future. A deeply original analysis of our technological future and the ethical dilemmas that await us, *The New Breed* explains how the treatment of machines can reveal a new understanding of our own history, our own systems, and how we relate—not just to nonhumans, but also to one another.

Embracing Alternatives to Homework in Early Childhood Angela Eckhoff, 2022-07-08 Providing readers with a robust, practical understanding of how young children build knowledge, this book offers a critical examination of the ways traditional homework fails young children, and how alternatives can better build collaborative engagement with families while supporting learning across all content areas. Grounded in culturally sustaining practices, the first section breaks down the pedagogies that support deep learning, while later chapters emphasize the role of critical and creative thinking, project-based learning, and student choice in the development of engaging, personally relevant home learning experiences. *Embracing Alternatives to Homework in Early Childhood* is a critical text for anyone seeking to reimagine homework practices as both equitable and agency-building in PreK-3.

Wild Souls Emma Marris, 2021-06-29 Winner of the 2022 Rachel Carson Environment Book Award * Winner of the 2022 Science in Society Journalism Award (Books) * Finalist for the Los Angeles Times Book Prize "Thoughtful, insightful, and wise, *Wild Souls* is a landmark work."--Ed Yong, author of *An Immense World* Fascinating . . . hands-on philosophy, put to test in the real world . . . Marris believes that our idea of wildness--our obsession with purity--is misguided. No animal

remains untouched by human hands . . . the science isn't the hard part. The real challenge is the ethics, the act of imagining our appropriate place in that world. --Outside Magazine From an acclaimed environmental writer, a groundbreaking and provocative new vision for our relationships with--and responsibilities toward--the planet's wild animals. Protecting wild animals and preserving the environment are two ideals so seemingly compatible as to be almost inseparable. But in fact, between animal welfare and conservation science there exists a space of underexamined and unresolved tension: wildness itself. When is it right to capture or feed wild animals for the good of their species? How do we balance the rights of introduced species with those already established within an ecosystem? Can hunting be ecological? Are any animals truly wild on a planet that humans have so thoroughly changed? No clear guidelines yet exist to help us resolve such questions. Transporting readers into the field with scientists tackling these profound challenges, Emma Marris tells the affecting and inspiring stories of animals around the globe--from Peruvian monkeys to Australian bilbies, rare Hawai'ian birds to majestic Oregon wolves. And she offers a companionable tour of the philosophical ideas that may steer our search for sustainability and justice in the non-human world. Revealing just how intertwined animal life and human life really are, *Wild Souls* will change the way we think about nature--and our place within it.

Beasts of Burden Sunaura Taylor, 2017-03-07 2018 American Book Award Winner A beautifully written, deeply provocative inquiry into the intersection of animal and disability liberation—and the debut of an important new social critic How much of what we understand of ourselves as “human” depends on our physical and mental abilities—how we move (or cannot move) in and interact with the world? And how much of our definition of “human” depends on its difference from “animal”? Drawing on her own experiences as a disabled person, a disability activist, and an animal advocate, author Sunaura Taylor persuades us to think deeply, and sometimes uncomfortably, about what divides the human from the animal, the disabled from the nondisabled—and what it might mean to break down those divisions, to claim the animal and the vulnerable in ourselves, in a process she calls “cripping animal ethics.” *Beasts of Burden* suggests that issues of disability and animal justice—which have heretofore primarily been presented in opposition—are in fact deeply entangled. Fusing philosophy, memoir, science, and the radical truths these disciplines can bring—whether about factory farming, disability oppression, or our assumptions of human superiority over animals—Taylor draws attention to new worlds of experience and empathy that can open up important avenues of solidarity across species and ability. *Beasts of Burden* is a wonderfully engaging and elegantly written work, both philosophical and personal, by a brilliant new voice.

Partner Logos V2 585x350 2 Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the power of words has are more evident than ever. They have the capacity to inspire, provoke, and ignite change. Such could be the essence of the book **Partner Logos V2 585x350 2**, a literary masterpiece that delves deep into the significance of words and their impact on our lives.
